EXPERIENCE

Freelance Contractor

MAR 2015 - Present

Digital Designer

Completed a range of projects including logo design, mobile app & website design, product prototyping, and development of multiple websites. Worked with clients such as: Smashburger to design and build two promotional campaign websites (SinCitySurvivalTips.com and GreatShakeDebate.com), Author Jim Keenan in the design and development of his latest book launch website (NotTaught.com).

AppThis

FEB 2016 - APR 2016

UI/UX Designer & Front-End Developer, (Independent Contractor)

Worked closely in collaboration with the software development team, product manager, and sales team to conceptualize and design the Self-Serve Platform. Built rapid prototypes that were tested and helped identify the best possible user-centered design solution and meet business requirements. Translated final designs to code (CSS, HTML, JavaScript) assisting in the front-end development of the Self-Serve platform.

Vladimir Jones

NOV 2015 - JAN 2016

UI/UX Designer, (Independent Contractor)

Played a primary role in re-designing the Denver South Transportation Management Association website (DenverSouthTMA.org). Responsible for the complete design from wireframe sketches to high-fidelity designs. Worked alongside dev team and creative writers to translate my designs to the final product.

iSYS LLC

FEB 2013 - JAN 2015

Junior Web Developer

Orchestrated a full re-design and provided on-site application and POC to the EXPeRT (Explosives Reference Tool) system deployed in the support of the FBI Explosives Unit and the Terrorist Explosives Unit at the FBI Laboratory in Quantico, VA. Reached Top Secret Security Clearance. Primary focus was on updating the interface and solving user experience problems by working alongside bomb technicians and field agents.

EDUCATION

Flagler College, FL

2009 - 2012

B.A. of Graphic Design

Majored in Graphic Design with a double minor in Fine Arts and Business.
